

I was born on June 2nd 1886 at Leipzig (Germany). After having attended the Oberrealschule at Essen Ruhr, I entered in 1904 Berlin University, and studied chiefly Chemistry, also Physics and Mathematics. At first I worked in the laboratory of Geheimrat Nernst, and then in the Technologisches Institut on the University with Geheimrat Wichelhaus. Here I made also my Dissertation: Ueber Phyrrolidonderivate (Derivates of Phyrrolidone), for which I was promoted Dr. phyl. cum laude in 1909 at the same University, from that lectures on Technology. In the laboratory I worked about cellulose, artificial silk, substituents for camphor, colouring matters, and India rubber, preparing for the career as Dozent. After having translated, when a student, a volume from English for Ostwalds Klassiker together with Geheimrat Nernst, I wrote for Geheimrat Wichelhaus also a book: Sulfurieren Alkalischmelze and Esterifizieren, and another one: Staerkezucker.

Louis Hugo Frank was employed as an instructor of "Warenkunde" in the Otaru Koto Shogyo Gakko, under the 1st contract, for three years, 1st April, 1913---31st March, 1916; and under the 2nd contract, for one year, 1st April, 1916---31st March, 1917.

At present he is in service under the third contract, which is valid for one year, 1st April, 1917---31st March, 1918.
